

Health Safety, Environment & Quality Advisory Services

The safety of your workers and the quality of your product is paramount. No one disputes your commitment to that. However keeping your Health Safety, Environmental and Quality (HSEQ) Management Systems up to date, compliant with legislative changes and easy for your workers to use can seem overwhelming. Clarity's HSEQ Advisory Service allows you to focus on your business confident that your systems support your commitment to quality, safety and the environment.

Clarity is able to offer a service for clients where our qualified staff are able to provide the following HSEQ services:

- On site auditing of your current HSEQ systems (inclusive of a gap analysis and action plan)
- Design and implementation of HSEQ Management Systems
- Development of quality and compliant HSEQ management policies and procedures
- Ongoing maintenance of your HSEQ Management System to cater for changes in the legislation, contractual obligations, working environment and workers activities

As part of this service Clarity will provide advice and assistance to ensure that your HSEQ Management Systems are complete and up to date with current legislation so that you and your workers are protected. Our services cover the full range of HSEQ components:

- Work Health Safety
- Environmental Risk Management
- Emergency Response Management
- Quality Management

Clarity can tailor a HSEQ Management System for your business that is compliant, appropriate for your industry and easy for you to use.

Clarity have been able to provide us with a simple, no nonsense system that delivers peace of mind that I'm doing everything I am required to do to protect my workers and my business.

Bruce Kennerley – General Manager Sicada Fire and Safety

Customer solution at a glance

Clarity provides flexibility for businesses. You can engage with us on a monthly retainer basis – so we are always there when you need us, on an outcomes basis – for the delivery of specific objectives or a combination of both. We tailor it to your business needs and budget.

It's entirely up to you!

Industries we have supplied

Clarity has provided HSEQ support services for the following industry sectors:

- Mining (Tier 1 and Tier 2)
- Mining services companies
- Transport
- Construction
- Manufacturing
- Data and Telecommunications
- Electrical Installation

How can we help you?

Whether you just want to check your current compliance, provide your staff with appropriate training, develop effective emergency arrangements or implement a full HSEQ management system, Clarity has the people and the skills available to provide you with confidence.

All of our auditing tools, procedures and forms are based around relevant legislative Acts and Australian standards such as:

- AS/NZS 4801:2001 OH&S Management Systems
- AS/NZS ISO14001:2004 Environmental Management Systems
- AS/NZS ISO 9001:2008 Quality Management Systems
- WHS Act, Regulations and Codes of Practice
- AS 3745-2010 – Planning for Emergencies in Facilities

So you can be sure it is right!

Call us today to discuss how we may be able to provide you with the basis for a fully compliant Safety Management System.

“We had a lot of the elements already there; we just didn't know where to lay our hands on it! Clarity provided a logical, easy to use method of ensuring that our HSEQ Information was accurate, compliant and accessible to our workers”

Jason Erbacher – HSSE Manager Mike Jones Earthmoving
