

Project Management

Project Management can achieve many different business initiatives, from business process improvement ... new systems ... new product development and launch ... organisational change programs ... to technology upgrades. No matter what the purpose is, you want your project to deliver specific business outcomes ... and that's what Clarity Business and IT Solutions focuses on.

At Clarity, we see the project from the client's viewpoint. We listen carefully to understand your business, your strategic needs and values.

Tailored Project Management Services

Clarity offers these options and outcomes through Project Management support:

Leading the project

Taking responsibility for delivering the outcome.

Project Reviews | Audits

Assessing progress and offering advice, often resulting in realigning projects to ensure stated benefits are realised.

Portfolio | Program Management

Quickly providing a single view of all project activity, interdependencies and financials, to enable clearer prioritisation of resources and budget.

Project Rescue

Salvaging a project that has run into problems through clarification of objectives, scope, and time to be invested.

PMO Establishment

Our consultants can implement Project Management processes, procedures, templates and methodologies. This equips organisations with the capability to successfully deliver current and future projects.

Our team's experience and certification in Project Management provides you with the assurance that the project/program will be delivered on time – and with key outcomes for your enterprise's future success.

Our clients attest to our experience and capability:

'Clarity have been able to provide us with a simple, no nonsense system that delivers peace of mind that I'm doing everything I am required to do to protect my workers and my business'

Bruce Kennerley, General Manager, Sicada Fire and Safety

'Clarity has been able to assist our busy practice in guiding us in developing a work health safety system with the least amount of disruption to our Practice. The work that has been done has been undertaken in full consultation with the Practice Manager and all staff of the Practice ...

As a result, we now have a comprehensive set of policies and procedures for managing all aspects of work health safety.'

Dr Garth Brice, Director, Orthodontics Canberra

'We had a lot of the elements already there; we just didn't know where to lay our hands on it! Clarity provided a logical, easy to use method of ensuring that our HSEQ information was accurate, compliant and accessible to our workers.'

Jason Erbacher, HSSE Manager, Mike Jones Earthmoving

How we work

Clarity has a practical approach to project delivery:

Assess the situation

Our consultants will review your situation and benchmark it against current market trends, Australian standards or relevant legislation and contemporary business principles

Inform – *You'll never die wondering!*

After the assessment we will provide you with a written plan or report of what will be needed to achieve your outcome. This usually will include an assessment of current organisational risk and a step by step action plan to successful project delivery.

Deliver – *We do what we say we will do!*

Working together with your business and your people we will provide professional, competent and consistent delivery methods. Controlled and planned delivery based upon sound project management practices.

Embed

There's no point doing a "Dump and Run"! Clarity's consultants will work with your Management and staff to ensure that whatever is delivered be it a policy, a safety system or a technology solution is done considering the need for effective change management. A focus on the human factors of any change increase the likelihood of success and this is our commitment to you.

Your assurance

Our internal Quality Management System is fully aligned with ISO 9001:2008 and has been assessed and approved by Queensland Government (QG). Clarity is listed on the register of QG Quality Assured Suppliers and we actively seek to continually improve our processes and delivery methods to ensure that our clients are consistently receiving a high quality service.

Our consultants are all certified professionals provided with research facilities, online and classroom based courses and ample opportunity and resources to keep their skills and qualifications up to date. This provides our clients with reassurance that the information and advice they are receiving is based upon well researched, current and qualified expertise.
